2016 EASTER MISSION AND THE SEASON EASTER

It was indeed a pleasure to have had Mr Doug O'Donnell, who originally hails from Chicago and is now a senior lecturer in Biblical Studies and Practical Theology at the QLD Theological College, as our guest for these past three days and as our Missioner for annual Easter Mission. We all profited from his ministry to us and we all gained value from the opportunity to consider verities which give meaning and purpose to our existence well beyond UAI/IB scores and sporting partnerships.

The Easter message brings to mind the contrast between false hope which the world thrusts before us in terms of materialism, which we find so often irresistible, and the Christian assurance of hope which Peter refers to in 1 Peter 1:3-5:

Praise be to God and Father of our Lord Jesus Christ! In His great mercy He has given us new birth, into a living hope through the resurrection of Jesus Christ from the dead and into an inheritance that can never perish, spoil or fade, kept in Heaven for you, who through faith is shielded by God’s power.

It is Christ’s indwelling presence in our lives today that gives us this living hope, based on the assurance of our inheritance into God’s family, guaranteed, if you like, by Christ’s resurrection, which we celebrate on Easter Sunday. As Mrs Cujes and I eagerly look forward to spending some time with our family over the next few days, we likewise trust that you, too, will enjoy a safe and happy break that affords you an opportunity for reflection and renewal, not only in the physical sense but spiritually as well.
EARLY DEPARTURE FRIDAY, 8TH APRIL 2016

As part of the School’s celebration of winning the CAS Swimming Championships for the 13th year in a row, and the CAS Diving Championships for the 5th year in a row, an early departure has been approved by the Head Master for the last day of term with the last two periods of the day being cancelled. All boys are expected to attend School on this day and boys should not regard the day as being any less important than other days. Details of the arrangements for each section of the School for the last day of term can be found below. Year 12 IB exams will go ahead as planned.

School Day finishing for Middle and Senior boys at 12:50pm - Prep buses to depart by 12:15pm
ACADEMIC FOCUS

YEAR 10 TRINITY SCHOLASTIC ACHIEVEMENT TEST (TSAT)

On Thursday 28th and Friday 29th April (Week 1, Term 2) Year 10 students will sit the Trinity Scholastic Achievement Test (TSAT). The TSAT is a common test for all Year 10 students at Trinity. It is an achievement test – not an intelligence test, nor an aptitude test. It has been designed to be accessible to all Year 10 boys regardless of their subject selections. Even though particular knowledge of specific senior subjects is not tested, the test assumes a base level of general knowledge, vocabulary and mathematical operations that would be reasonably expected of a Year 10 student.

The TSAT consists of four test papers taken over two consecutive days, involving one Writing Task, one Short Response Test and two Multiple Choice Tests. Students will be asked to respond to a variety of stimulus materials, such as prose passages, poetry, graphs, tables, maps, mathematical and scientific data, cartoons and artistic works.

The TSAT is in keeping with our commitment to setting academic standards of the highest order, nurturing and challenging our boys during this critical period in their education. Results from the TSAT will be reviewed with each student by his Housemaster during a follow-up interview on Monday 16th May (Week 4, Term 2). This process provides students, and parents, with additional valuable information to help make more informed, wiser subject selection choices for the final two years of secondary education, irrespective of whether the choice is the HSC, IB Diploma, TVAC or School-based Traineeship option.

Jason Cheers | Academic Dean

TRINITY GRAMMAR SCHOOL’S YEAR 8 FIELD STUDIES PROGRAMME IS READY TO LAUNCH

It is now less than 5 weeks until the Year 8 students commence their Geography programme! The delivery of Geography for Year 8 students at Trinity Grammar will utilise a blended learning model which includes a field work immersion and an online course which have both been designed to produce a rich learning experience.

Trinity Grammar School’s Blended Learning model

Blended learning utilises a range of delivery methods that take advantage of the educational power of new information technologies. The programme draws on the powerful Canvas student learning platform to guide students through four learning modules in order to develop a sound understanding of the conceptual framework that underpins the Year 8 Geography curriculum. The guided, yet self-organized nature of the online modules, is intended to help students develop vital habits for lifelong learning. This is also supported with a traditional face-to-face classroom teacher who instructs and supervises students on their learning journey.

However, the jewel of the blended learning model is the week-long Field Studies Programme which will be delivered at Koloona and Woollamia in the Shoalhaven area. The School is very proud of the new Field Studies Centre as we believe it will represent a ground breaking innovation in boys’ education. The Geography Programme will allow our boys to explore Geographical themes and concepts in a real-world environment and allow them to make deep and meaningful connections between their conceptual knowledge and the practical fieldwork enquiry.

David R Latimer | Head of Geography
SERVICE WEEK 2016

Once again Service Week was a big operation in 2016, with over twenty different activities taking place over the week. Activities that boys were engaged in varied from a Peer Support-led “getting to know each other” camp for Year 7, to the rugged military approach of Cadets, to the care and support of children with special needs at Canterbury Public School, to Wesley Mission, and to supporting remote communities such as Bigga and Ti Tree.

It is the senior students, having been given the opportunities to serve the community, who find Service Week the most motivating. Trinity students continued to work with charitable organisations such as Crossroads in Hong Kong and assisted too with the homeless at the Wesley Mission “Street Level” at Surry Hills and at the Exodus Foundation at Ashfield (where renowned philanthropist Rev Bill Crews visited the boys while serving). The people of Bigga in the Southern Tablelands and Ti Tree were the benefactors of Trinity’s help, the boys being engaged in a broad range of activities. Trinity maintained its commitment to the Salvation Army centres of Maroubra and Auburn, the boys assisting in their community ministries. Our lads also worked with the National Parks and Wildlife in bush regeneration.

A new initiative for 2016 was for a group of Trinity students to work with Canterbury Public School which has a Special Education Unit comprising five classes of students who have significantly different schooling needs. It was particularly pleasing to watch Trinity boys assisting these young primary aged students with their day-to-day schooling, the programme culminating in Trinity’s hosting a sport day and BBQ for Canterbury, bringing the two schools closer together. Along with this, a group of boys assisted with Anglican Youth Works at Port Hacking, working closely with their grounds and maintenance teams, often working hard outdoors under challenging weather conditions. The Shepherd Centre in Newtown, the charity supported by Stephenson House each year through Loud Shirt Day, hosted a small group of Year 12 boys who assisted the Centre through the week.

Cadets continue to have a positive experience during their Annual Field Training exercises at Singleton with senior ranking boys leading in the younger boys in the field. Student morale was high when various visitors arrived. In particular, it was most pleasing seeing Head Master Mr Cujes wearing the “camos” of the unit on his rounds! Our Years 8, 9 and 10 Outdoor Education groups all had successful camps where they undertook challenging activities especially Year 10, who were thoroughly tested by the 22km canoe voyage along the Colo River!

Congratulations to all the staff and boys for an excellent week. Through its shared challenges and experience, further bonds of friendship and trust were developed together with understanding of compassion, care and thoughtfulness.

Lachlan White | Activities Master
NEWS FROM THE ARTHUR HOLT LIBRARY

UN WORLD POETRY DAY MARCH 21

This week we have been celebrating all things poetry to commemorate World Poetry Day. Visitors to the Library this week have contributed to our displays of book spine poetry and blackout poetry – both innovative ways of taking existing works of literature and creating something new. Plus, they are heaps of fun to do. So why have a day of recognition for poetry? In celebrating World Poetry Day, UNESCO “recognises the unique ability of poetry to capture the creative spirit of the human mind.” The collaborative displays have proved popular with English classes and the lone poet alike. In fact, the displays will stick around for Week 10 too, so we invite students and teachers to visit next week and unleash your mind’s creative spirit!

A friendly reminder!
With two weeks left of term, we ask that boys please return any overdue Library materials. Alternatively, they may see the Librarians should they wish to re-borrow for another loan period. Any found items that may have already been paid for can still be returned and the funds will be reimbursed. Thank you!

Tabatha Paterson | Teacher Librarian
Trinity’s school-based trainees were busy at work with their employers during Service Week. When embarking on their traineeships, these Years 11 and 12 boys committed to completing between 100 – 180 days of work (depending on their course) with their employers.

In some cases, this equates to three full terms of work, in addition to their normal academic workload. I had the pleasure of visiting the boys at their places of work last week. The boys are expected to make contact with their supervisors to confirm their work details, and as well, get themselves to and from work each day, working hours to meet their employers’ expectations. No sleep ins for these boys last week!

On Monday, my visit commenced in the Five Dock area where our trainee Reece Giakoumatos (11Du) was at work in tracing cables under a block of units. On the other side of the block our trainee Andrew Saber (12Ho) was at work on a beautiful waterfront site. Andrew is working with Technique Building and was busy framing and building walls on this new site. From Five Dock to Caringbah, where our trainee James Spanos (12Ho) was busy drilling and using a jack hammer to clear sections of rock and concrete for a new extension. Both Andrew and James received positive reports from the employers on their work ethic and commitment towards their work.

From Caringbah to the airport, where our trainee Kieran Martin (11Du) was working on a ten storey apartment block in Wolli Creek. Kieran is working towards an electrical pathway and was enjoying the opportunity of working and installing new lights in these new apartment blocks.

On Tuesday we visited Construction trainees Nicholas Griffiths (11Ta), Alan Lo (11Hi) and Nicholas Capovilla (11Ho) on a redevelopment residential site Rozelle. These boys were hard at work digging trenches for a new retaining and paving area on this redevelopment site. Their site manager was pleased with the attitude and dedication that these boys have towards their work and is happy to be able to support the School in providing this workplace exposure.

From Rozelle to Darling Point, where we visited Electrotechnology trainees Connor McGimpsey (11Yo) and Kean McCaw (11Ke), helping with the installation of new electrical systems and tracing wires on a heritage listed apartment block. Steven Barneit from SBE Contracting was very pleased with their work and commended their enthusiasm to the job.

It was very pleasant visiting Hospitality where Avery Freeman (11He) worked with the Trippas White Group in the Sydney Tower. In his first week with this employer, Avery had the opportunity to work back of house in the basement kitchen preparing food for lunch and dinner. Alison Hunt (Avery’s supervisor) was very encouraging of the maturity and organisation skills Avery displayed during his first-ever work placement in Hospitality.

We had to wait until Thursday to visit the Circular Quay site of our trainee George Varvaressos (11La) due to site access. Axis Plumbing had him measuring, cutting and welding pipes for a new toilet services area on the Circular Quay site. George was comfortable on this site, and learning valuable work skills towards his vocational pathway.

All the boys visited during Service Week were working very well and had formed good relationships with their employers. Trinity thanks the employers for their commitment to our SBT program and looks forward to working with them in the future.

Dr Frederick Osman
Director of Vocational Education and RTO Manager (Careers Education)
Trinity Grammar School hosted an exciting initiative to welcome 70 Vocational Education Teachers and Coordinators from across the membership of the Association of Independent School (AIS) at its recent “VET Network Day”.

In a year which has already seen so many changes to this exciting and rapidly changing sector, the need to recognise and provide professional development for VET teachers is a crucial element for any organisation in knowing the specific skills that the industry requires. This network day allowed VET practitioners to be more informed about the training packages requirements and industry standards to have a better understanding of their own continuous improvement strategies for training and assessment. The day also allowed for opportunities to explore the challenges we face as practitioners in Validation and Moderation in VET and to engage with keynote speakers who have extensive knowledge of the VET sector. VET in schools has grown dramatically since 2001. This year approx 22,969 students are enrolled in at least one HSC Vocational Educational and Training or VET course. Of these, 20,466 are enrolled in one or more of the VET curriculum frameworks across our schools in NSW and having important events like this day can help to promote best practices in VET in this exciting and rapidly changing sector.

The programme content during the day included:

1. The opportunity to network and share resources with other VET practitioners across the sessions;
2. To develop outreach and create opportunities in understanding new ideas, sharing and developing resources and continuous improvement strategies in promoting best practice in vocational education and Training;
3. Finally, the opportunity to receive new developments and updates from the AISRTO, the Board of Studies regarding the curriculum requirements and qualification updates.

The more specific aims of network day included:

> To give all VET Teachers a chance to learn, network and share vocational training information in the friendly environment of a school setting.

The participants enjoyed working with other educators from a variety of schools in providing relevant industry and practical mentoring opportunities. The Network Day was also a form of professional development to help the VET educators to be informed and updated about their VET curriculum requirements. The presenters at this Network Day used a variety of powerful techniques for idea generation, idea evaluation and implementation, which included strategies in VET assessment and validation that educators would need to known for compliance requirements.

I would like to thank the AIS Team which included Heather Chand, Julie Sheridan, Frances Mowle and Darryl Buchanan in supporting and organising this important event and in particular to Maureen Jones, Senior Project Officer from BOSTES as our keynote speaker, for being involved in the 2016 VET Network Day. I am hoping that we can all again contribute to the next phase in supporting VET teachers through the provision of good induction and mentoring in the near future because a successful mentoring partnership is a career development experience to be enjoyed.
SILVER MEDAL FOR TRINITY STAFF TOUCH TEAM AT THE 2016 NSW CORPORATE GAMES

Staff at the Trinity Grammar School banded together to support the Australia Diabetes Council to enter for the fifth time a Mixed Touch Football team to support the NSW Corporate Games on Saturday 19 March 2016. The Trinity Touch Team (TTT) consisted of talented staff from a range of departments to get together in a social context and play against 20 other organizations in NSW. Our team this year was strong, made up of John Blois, Emma Cook, Patricia Duke, Jonathan Wallace, Brad O’Young, Mark Oakley, Sarah Tallis, Daniel Chu, Erin Peters and Fred Osman ©.

Our first mission of the day was to compete in our allocated Mixed Pool competition against other experienced corporate teams. Trinity started well by developing some good combinations to score early and defend very well to win their first match against ANZ Touch by 7-1 in a great a team effort in our first game together.

We entered our second match of the round with confidence against an experienced ENDEAVOUR ENERGY Touch Potential. The team played a great game of Touch Football to score some skilful try’s to secure an outstanding 5-2 win. Our third match was against an informed MARS FOOD – Mars All Sorts. The team started where they left off in their previous match to have an outstanding win by 7-1 with the highlights being our defence to keep the opposition to only one try. As a result from these games, Trinity Touch Team (TTT) topped their mixed pool to advance to the sudden death stage in the Quarter Finals against KPMG Mixed Touch. The team started strongly once again by scoring in their first set against KPMG to dominate the attack with skilful passes and moves to get around their opposition to secure an outstanding win by 10-2 and move into the Semi-finals of the tournament.

It had been a long day and the spirits of the team were high but unfortunately we were nursing some injuries before our Semi-final clash against ENDEAVOUR ENERGY Touch Potential. A win in this game would have been the best result for Trinity in these NSW Corporate Games and the spirits were high to win this match and secure a medal on the day. Trinity started well to score first in the game. ENDEAVOUR ENERGY Touch Potential bounced back to score next and we knew this match would go down to the wire. Trinity’s attack to score try’s in the match proved to be the final result with an excellent win in the Semi-final by 7-5 to secure a finals birth at the 2016 NSW Corporate Games.

Trinity moved into the final match against the undefeated GODDESS OUTDOOR Fitness team, expecting to do what they had done earlier in the day. GODDESS OUTDOOR Fitness on the other hand looked very determined and showed themselves to be a very different and experienced team from the other teams we had played earlier. It was a tough battle and Trinity only loss for the day against an outstanding opposition by 7-1. It was all over and a fantastic effort from all the dedicated staff involved in their annual community-based event had them finish runners-up to secure the silver medal of the 2016 NSW Corporate Games!

Dr Frederick Osman | Trinity Touch Team (TTT) Coach
RUGBY

Before England’s final game against France in the 2016 Six Nations, Eddie Jones was interviewed about the improved performances from the England side. His observation was that once the side began to play with confidence, the narrow margins shifted in the team’s favour.

Confidence, as we know, is the X – factor that transforms performance and allows individuals and teams to transcend barriers previously believed to be impossible to overcome. The proviso, however, rests in the discipline required in preparation. A contact sport like Rugby requires both the development of skill and the reduction of fear in contact, as far as possible.

One way this has been expedited is the introduction of falling skills and collision management instruction. Last year, Warren Rosser, former Judo Olympian and Head Coach at the UNSW Judo Club, taught these skills to players during pre-season. Mr Rosser has worked with professional football teams, including the Sydney Swans, Bulldogs and Brumbies. This year, again, he has been contracted to coach these skills to all players in each age-group. By instilling confidence in our players through the technical management of the tackle situation, and the awareness of positioning when falling, they are more able to perform confidently on the field.

While learning these contact skills, the commitment to practise remains important as a refinement measure. Gary Player, I believe, summed up the importance of repetition and practice when he said, “The more I practise, the luckier I get.”

Andrea Folli | MIC Rugby

BASKETBALL

TRINITY PLAYERS COMPETE WELL FOR CAS

After three consecutive tough nights of Representative Basketball against the best from the ISA, AICES and GPS associations the eight Trinity boys who were chosen (Sebastian Diaz (10Ta) having been called up into CAS 2nds) did their School proud with solid performance across the three games.

It proved a tough start for both CAS Firsts and Seconds against an ISA Teams that were hardened and well prepared as it was their third and final outing. Playing out at St. Paul’s Grammar, Penrith, CAS unfortunately went down in both games. The CAS Firsts just fell short (84-89) to ISA and the CAS Seconds were outplayed by ISA as well (52-69).

The following night at St. Aloysius’, CAS bounced back with two good wins over AICES. All the Trinity boys performed extremely well in these games, getting plenty of court time and contributing at both ends of the floor. The CAS Firsts were always in control in their victory (91-74), while the CAS Seconds pulled away late to win by nine points (78-69) with Sebastian Diaz playing well.

Trinity were fortunate to host the final and most anticipated games against their old enemy the GPS. In the opening game the CAS Seconds showed plenty of heart to fight their way back into the match with Trinity’s Jake Kerry (11Ho) and David Hickey (11Ke) leading the fight back with huge plays late in the game to almost steal victory for the CAS (70-72). The young Trinitarians were some of CAS best, with Hickey (24 pts.), Kerry (8 pts.) , Tom Mackenzie (12 pts.) and Jed Keogh (11Ar) combining for 47 points.

Once again GPS were far too strong for CAS in the Firsts, but Jayden Tanevski (12La) put in a solid performance, leading all scorers with 21 points. CAS put up a fight early before GPS put the pressure on and ran away with game to win by 30 points (81-111).

Ben Morrissey | MIC Basketball
FOOTBALL

On the Saturday before Service Week, Trinity hosted Barker College in a trial fixture on TGS No 2 that involved the 1st XI, 2nd XI, 10A, 9A and 8A teams. All other teams had an internal fixture that included possession games and small-side games. Below are the match reports from those teams who played Barker.

</tr>
</tbody>
</table>

1ST XI

Trinity were keen to get back to winning ways following the Independent Schools Cup loss two weeks prior. The young men in green looked to control possession early and as a consequence were able to create early chances. Trinity’s first goal came from a long Reece Sekulovski (12La) throw in. William Piras (12Sc) was able to get up and contest the Barker Goal Keeper for the throw in and sneak a foot in to get the ball over the line. Defender Ryan Maranik (11Ar) earned his maiden start in the 1st XI and looked very comfortable in defence throughout the game, winning his tackles and intercepting numerous opposition attacking raids. For Trinity’s second goal, winger William Piras was able to play a square pass to a supporting Luca Kmet (11Ke) who dribbled into the box and was brought down by a Barker defender. The referee was there to call a penalty and Kmet calmly converted to give Trinity a 2-0 lead. Before the half time break, Trinity conceded and the leak did not stop there.

In the second half, Barker fought back to take a 3-2 lead with 15 minutes to go. It was pleasing to see that Trinity did not panic and calmly went about their business. On an attempted clearance by the Barker defender that travelled outside the box, Kmet was in a position to control and line up a shot. No second touch needed though, as Kmet struck his shot first time with rocket-like propulsion, hitting the bottom part of the cross bar and in over the line. With the score line back to 3-3 and minutes to go, Trinity had an attacking corner that Harrison Page (12Yo) was able to connect his head on. The shot was too quick for the Barker Goal Keeper to get his hands to and the score line ticked over to 4-3. Trinity then closed out the game to take out a confidence boosting win.

Luke Gray | 1st XI Coach

2ND XI

A scratch 2nd XI side with boys covering no less than six teams who played in the Year 10 or Open divisions in 2015 took to the field against Barker last Saturday at TGS 2 on a hot and humid Saturday morning.

The 1st stanza was a fairly even affair with both sides not respecting possession enough in the sweltering conditions confronting both sides. Four shots by Trinity, including a long range effort by central defender Adrian Musumeci (11La) were well saved by the opposition Goal Keeper. Statistics at half time showed both teams were fairly equal and the score line of 0-0 reflected this. A notable performance from Goal Keeper Joshua Hobden (11We) made several fine saves to keep the opposition score to 0. Half-time instructions of keeping the ball fell on deaf ears as Barker proceeded to do this much more effectively, peppering the Trinity goal with the first of two goals coming midway through the second period, whilst key defender, Musumeci was down injured. With the oppressive heat taking its toll, Trinity used their extensive bench but this caused a lack of cohesion at times. Nicholas Bishop (12Hi) and Michael Dutton (11We) were strong in defence, repelling many Barker forays.

The eventual score line of 0-2 was a fair reflection and showed we have work to do before we meet the same opponents in the 1st round of CAS on Saturday, May 7th.

Chris Robinson | 2nd XI Coach

10A

Our first trial game of the season was met with very hot and trying conditions, but the boys showed their intentions from the outset. Barker struggled to come to terms with our pressing game and high energy levels, this being very encouraging to see this early in the season.

Barker showed some good attacking moves and scored in the 41st minute, making it 3-1, but overall our defence was well marshalled by Darcy Edwards (10WJ) who was unlucky not to score when his shot hit the post. Special mention has to go to Max Voight-Mccluskey (10Ar) who hit the post twice. One game doesn’t make a season, but the boys can be well pleased with their effort. Goals were scored by Joshua Ward (10Sc), Adam Racheha (10He), Evan Giannaros (10WJ) and Zac Lorusso (10He).

Wally Savor | 10A Coach

9A

30 degree heat and 74% humidity on the pitch could not dampen the enthusiasm of the team. It only took 9 minutes before TGS broke the defence after Nicholas Field (9WH) threaded a ball in behind the defence for Sam Harb (9Sc) who easily slotted the ball to the right of the keeper. Thomas Spratt (9Mu) scored the second goal after some clever ball work from the left. 21 minutes into the game and Thomas Spratt passed the ball to Kenny Chu (9Mu) who back healed it past the keeper. A miscommunication in defence produced a goal for Barker. Shortly after, Sam York (9Hi) crossed to Kenny Chu who produced another goal. The first goal of the second half came when Owen Duke (9La) took the ball up the right side of the field crossed it in behind the midfield to Kenny Chu who passed to Sam York for another goal. Further goals were scored by Alex Williams (9St), Nicholas Field and Thomas Spratt. A convincing performance by the team.

Joe Vaccarella | 9A Coach

8A

TGS 8A football team got their 2016 season preparations off to a positive start, winning convincingly 6-0 against Barker College on a hot Saturday afternoon.
In a match that saw TGS dominate for the majority, the first 10 minutes provided an even tussle and neither side managed to control the match. That was until Hugo Cornish (8We) neatly finished in the 12th minute to put TGS 1-0 up. Within the next five minutes Cornish scored two more, making it 3-0. In the 22nd minute, Yanni Plataniotis (8Sc) received a short corner and angled in a shot from outside the box making it 4-0.

The second half was used to change the focus for TGS and controlling possession was the centre point. An objective of five-plus passes in each passage of play was set out and achieved many times throughout the second half. It didn’t take long for possession to turn into goals and Hugo Cornish was again on the score sheet, taking the score to 5-0. Not too long after that with more dominant possession, match day captain Zak Balzan (8Ta) added another goal.

Other notable performances were played by Steve Poulos (8Ta), showing his speed and athleticism to overlap and create overloads down the right hand side and Nicholas Bakopoulos (8Mu) for his understanding and implementation of his positioning while in possession.

Samuel Jacob | 8A Coach

**TRIALS**

Since return from Service Week, boys have continued to trial and this will continue until the full fixture against Shore on the Saturday following Easter.

Luke Gray | MIC Football

**SCOUTS**

Sometimes I am amazed at the skill and expertise that is being learnt and applied by the young men of the Trinity Scout Group. This week Ryan Snowsill (7Ho) presented to the Scouts a hike he has mapped out and planned for 24 April. The hike is along the coast walk from Wombarra Station to Thirroul. In preparing for the hike, Ryan has not only researched and provided transport information for youth and adult helpers from Wolli Creek, but also scheduled the hike to meet optimum tides as they beach-hop along the coast. He has also identified safety exit points for this 8km day hike. He has prepared a packing list and a target backpack weight has been set at 10% body weight for the day hike. Could you have done that when you were 12 years old?

Meanwhile James Hull (10WH) is organising a mixed group of Venturers to participate in a competition hike/camp called DragonSkin over the full Easter Weekend in the Belanglo State Forest. He and four other Venturers are participating as a team, requiring them to be fully self-sufficient over the four days and three nights as they navigate the 50 square kilometre course and undertake challenges set by Leaders and Rovers along the way. Weather is always a challenge at DragonSkin where it can be baking sun in the morning and sleeting rain in the evening, which adds to the challenge of packing for and camping on this light-weight hiking weekend.

On Saturday this weekend there will also be a small working bee on the Trinity Scouts Campsite at Coutts, with a bigger working bee to be scheduled early next term as we expand the site to accommodate more tents in the lead-up to Region Camp. This annual camp is held on the June long-weekend where the camp activities this year are based on the theme “Indiana Jones”.

This week the Leaders were pleased to present Nicholas Magoulas (Sc7) his Scout Craft Badge as well as proficiency badges in animal care and team sports. BRAVO Nick!

Trinity Scouts caters for boys 7½ to 10 ½ (Cub Scouts), 10 ½ to 14 (Scouts) 15 to 17 (Venturers). The group also works in partnership with surrounding Scout Groups to support all sections. The Group meets in the Old Gymnasium from 6:00pm to 7:30pm on Tuesday evenings during term as well as some weekend camps working around School sporting commitments where possible.

**HOUSE SERVICE**

**ARCHER, LATHAM, WYNN JONES AND WILSON HOGG**

Venue St Andrew’s Cathedral, Sydney
on Sunday 3rd April 2016 at 2pm
INDEPENDENT SCHOOLS GOLF SERIES
Round 10 (final), Avondale Golf Club,
Saturday 19th March, 2016

The Trinity Golf Team headed back to possibly the home of schoolboy golf and arguably the best hosts in Sydney, Avondale Golf Club, last Saturday. Despite not being in the running for the silverware, we were looking to secure a possible podium finish if we ‘fired’ and won all our matches. Alas, this was not the case as we got thumped 4 – zip at the hands of the ruthless Knox 1 team, which incidentally comprised of all Year 12 players.

In summary, the 2015/16 season of Independent Schools Golf has been a most enjoyable and rewarding one with our young team performing most creditably and showing much promise for the future.

Good golfing,

Michael Spratt | MIC
MATHEMATICS CLUB MATTERS

MATHEMATICS CLUB MATTERS COMPETITION FOR ALL BOYS

The Mathematics Club at the School is pleased to continue this week with “Mathematics Club Matters” for all boys interested in experiencing Mathematics. This has been a popular competition for all boys in the school.

The boys will have an opportunity to enter either a Middle School Maths Problem or Senior School Maths Problem each week. The boys will attempt on their own paper one problem each week within their year group of either Middle School or Senior School and will have until Monday lunch-time (1.15pm) to enter their submission at the Mathematics Department office. All boys will need to place their name and House group with their submission.

There is a permanent box placed outside in the Mathematics Department for each problem. The first correct solution drawn from each box on Monday at 1.30pm will be the winner, with the names published weekly in the Mathematics Club Matters section of the Head Master’s Bulletin.

Every correct solution will go into the draw to win a major prize at the end of each term. Solutions for each problem will appear in the Head Master’s Bulletin. So get your entries in this week for a chance to win.

THIS WEEK’S PROBLEM FOR BULLETIN IX:

1. Years 7-9: Middle School Problem due on Tuesday 29 March 2016

A digital clock shows time in the form HH:MM. On a certain day, what is the number of minutes between 7:59 a.m. and 2:59 p.m. that is greater than MM?

2. Years 10-12: Senior School Problem due on Tuesday 29 March 2016

Two consecutive whole numbers, each less than 20, are multiplied and their product is increased by 17. There are exactly two values of the lesser of the two consecutive numbers for which the result is not a prime number. Find both values of the lesser number.

Please place your name and House group with your submission by Monday lunch-time (1.10PM) at the Mathematics Department Office.

Dr Frederick Osman | MIC Mathematics Club

OTU CAREERS AND INDUSTRY EXPO

On Thursday 19 May 2016, the School will host a joint OTU/RTO Careers and Industry Expo at Summer Hill Campus from 5PM to 7PM in the Centenary Centre. The event is dedicated to all career areas and vocational education training both traditional and non-traditional trades will be show-cased.

What’s on offer for Students?

This EXPO is an ideal platform to promote apprenticeships, cadetships, jobs and education and training in these areas. Visitors to the Careers Expo will be taken on a unique ‘journey’ of career advice, interaction education and training options. The event is designed to facilitate ALL students (Year 10-12) with both an academic and vocational focus.

For further enquiries please contact Dr Fred Osman 02 9581 6040 or email fosman@trinity.nsw.edu.au or Mr Stephen Heanly 02 9581 6065 or email sheanly@trinity.nsw.edu.au
Young Archimedes Enrichment Forum
– A Framework for Gifted and Talented Learners

Date    Monday 18th July 2016
Time    8:00am - 4:00pm
Where    Centenary Centre
         Trinity Grammar School Summer Hill,
         119 Prospect Road, Summer Hill NSW 2130
Cost:    $60 per person

On Monday, 18 July 2016, the Mathematics Club will host a one day Young Archimedes Enrichment Forum. It will provide an opportunity to develop extra-curricular activities for young students from gifted primary through to Year 9.

The Forum will specifically focus on the implementation of the Curriculum in Mathematics, and a range of teaching and learning ideas. Relevant classroom resources will be explored in a workshop format. The Forum aims to motivate students with worthwhile mathematical tasks and ideas to develop skills and innovative concepts.

This event is suitable for gifted Year 5 and 6 primary and Years 7 and 8 and 9 secondary students.

Workshop topics to be covered

Workshop 1
Inquisitive Minds on Problems, Patterns, Pictures and Puzzles (PPPP).

Workshop 2
A famous Mathematician by the name of George Polya once said, “It's better to solve one problem five different ways than to solve five different problems.”

Registration Process
To confirm your place, please complete the Online Registration and payment by the closing date of Friday 10 June 2016.

Payment of registration entitles students to:
- Attendance at both workshops, Recess, Lunch and Forum Satchel and Stationery.

Proudly supported by
Gifted Families Support Group Inc.
Inquisitive Minds

For all enquiries please contact Dr Fred Osman | Enrichment Coordinator on 9581 6040 or fosman@trinity.nsw.edu.au

CAREERS

Get yourself familiar with following CAREERS websites:

**My High Schools Careers Website:**
Trinity subscribes to a careers service which allows students and parents to be kept up to date with Careers News and Events. To access this information go to the website www.mhsCareers.com and then login with: Trinity and the Password: mhs2016

**Careersworks Website:**
Is an organised grouping of careers resources and sources for secondary students parents teachers and careers advisers. To access this information go to the website www.careersworks.com/ and then Password: next

**JobJump Website:**
To access this information go to the website www.jobjump.com.au and then type the first couple of letters of Trinity in the first white box on the right hand side and when the name of your school appears in blue on the screen, simply click on it and it will enter into the first box. Then enter your email address (preferably your home email address for students, as your school email is lost at the end of Year 12) and click Login. Enter the Password: trinity and then answer a couple of brief questions to register.

**UTS 2017 Course Guides**
UTS has released digital course guides for its 2017 undergraduate courses. Hard copies can also be requested. http://www.uts.edu.au/future-students/undergraduate/essential-information/uts-courses/course-guides

**Notre Dame Medicine Information Session**
20 March. 12pm - 160 Oxford Street, Darlinghurst

**US University Standardized Test Requirements- new SAT and ACT explained**
Students interested in studying univ in the US and supporting career advisers are encouraged to read our article outlining the new SAT and the ACT standardized tests which are used for admission purposes to most US universities. http://www.internationallyeducated.com.au/#!learn/cfx Contact for assistance if you are considering studying in the US. www.internationallyeducated.com.au 02 8006 9737

**University of Notre Dame**
Young Achievers Early Offer Programme
Applications open mid-March. There are four categories students can apply in, commitment to community and/or Church, commitment and excellence in cultural pursuits, commitment and excellence in sporting achievements and academic excellence. For any further questions email: sydney@nd.edu.au http://www.nd.edu.au/nav-future-students/young-achievers-early-offer-program

**Macquarie in a Day**
21st April 2016, 8:30am to 3pm, Macquarie Theatre, Macquarie University. The day offers students a chance to choose which classes they are interested in attending, experience practical sessions and tutorials and ask staff and students about university life. http://www.mq.edu.au/about/events/view/macquarie-in-a-

---

**University of Sydney HSC Preparation Courses**
The courses run at various times throughout the year. There are preparation courses for biology, chemistry, economics, exam preparation, legal studies, music, visual arts, business, design and technology, English, history, mathematics and physics. Dates for specific courses can be found by following the below link. https://cce.sydney.edu.au/courses/education/hsc

**UMAT 2016**
Registrations Open Soon for all student interested in medicine, dentistry and health science degree programmes at undergraduate.
The test takes place nationally on Wed 27th July 2016. UMAT is a test that is used specifically to assist with the selection of students into the medicine, dentistry and health science degree programmes at undergraduate level at the universities listed on the website. http://umat.acer.edu.au/

**OTU/RTO Careers and Industry Expo:**
On Thursday 19th May, the School will host a joint OTU/RTO Careers and Industry Expo at Summer Hill Campus from 5PM in the Centenary Centre. The event is dedicated to all career areas and vocational education training both traditional and non-traditional trades will be show-cased along with the opportunity to speak with Old Boys, individually, about a wide range of careers.

**CADETSHIPS IN BUSINESS AND TECHNOLOGY:**

**Business Cadetships Programme**
Opens on 7 March and applications close 11 May. Run by Professional Cadetships Australia. Year 12 students apply online at www.businesscadetships.com.au (Under the Programme, UBS will continue to offer cadetship opportunities across the firm. Information on the Programme is provided on our website).

**Engineering & Technology Cadetships (ETCAD) Programme**
Opens on 26 April and applications close 17 June. Run by Professional Cadetships Australia. The 2016 Programme provides Year 12 students with the opportunity to apply for a Technology Cadetship at Westpac. On completion of their cadetship, Technology Cadets are well-placed to pursue a career in IT and in business. (This year Rolls-Royce will not be offering Engineering Cadetships). Information on the ETCAD Programme may be found at www.etcad.com.au

**UNIVERSITY:**

**UNSW**
Built Environment Student Workshops: UNSW Built Environment invites high school students to campus for these special one day workshops.

> Computation Design – Tuesday, 15 March
> Industrial Design – Thursday, 17 March
> Interior Architecture – Thursday, 17 March
> Architecture – Wednesday, 23 March

More information and how to register available in the calendar on whatson.unsw.edu.au.
UNSW

Law Admission Test Information: Admission to Undergraduate Law at UNSW is changing. For entry in 2017 and beyond, we are broadening our assessment of applicants for entry to our Undergraduate Law Dual Degree programmes. We are introducing a new test, the Law Admission Test or ‘LAT’, to give students the opportunity to demonstrate their suitability for the Law programme and allow us to better assess applicants. A student’s LAT result, together with their ATAR (or equivalent), will provide us with a more rounded view of their aptitudes and skills for our Law programme. https://www.futurestudents.unsw.edu.au/law-admission-test-lat-information-evening

Bond University

Medical Programme: Bond’s Medical Programme is comprised of two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Programme will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5. https://bond.edu.au/program/medical-program

University of Western Sydney

The Academy Scholarships: Excel in your studies and contribute to your community and you may receive: VC Leadership Scholarship, $10 000 per year. Dean’s Scholarship and Academic Excellence Scholarship, $5 000 per year. http://www.theacademy.edu.au/scholarships

University of Western Sydney College

Foundation and Diploma: Foundation Studies allow guaranteed entry to an undergraduate degree at the University of Western Sydney. An ATAR is not required for entry. From Foundation Studies students can enter the first year of an undergraduate degree or complete a Diploma, which allows them entry into the second year of an undergraduate degree. https://www.westernsydney.edu.au/thecollege/courses_and_pathways/foundation_studies

Notre Dame: Business – Law – Arts Symposium
21st June 2016, 10am to 2pm, 104 Broadway, Chippendale. Registrations are now open for the Business – Law – Arts Symposium, the event is for students in years 11 and 12. The day will provide information on different career opportunities available through degrees in Business, Law and Arts as well as curriculum support for students and teachers and allow students to hear from academic staff on current issues. http://www.nd.edu.au/events/2016/business-law-arts-symposium

CQUniversity Sydney: Bachelor of Science (Chiropractic)
There is a great demand for qualified and registered chiropractors. This career delivers work-life balance, travel and self employment opportunities. Students at our CBD campus learn from an award winning faculty using the best available facilities. https://www.cqu.edu.au/courses-and-programs/study-areas/health/undergraduate/bachelor-of-science-chiropractic

University of Sydney: Dr Karl Short Back and Science

Bond University: Medical Programme: Comprises two sequential degrees - The Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). It is designed to equip graduates with the knowledge, skills and attributes that a doctor requires to effectively practise medicine in today’s complex health care environment. https://bond.edu.au/program/medical-program

Guaranteed pathways into UOW

UOW College offers 28 week courses that can guarantee students entry into the first or second year of a range of UOW undergraduate degrees (subject to meeting UOW entry requirements). For information visit http://www.uowcollege.edu.au/pathway/index.html

UNSW Engineering

Through engineers’ eyes: engineering mechanics by experiment, analysis and design: 18th April 2016, 12pm. This free online course will provide information on the techniques of engineering mechanics as well as using the theory to interpret experiment and designs. The course consists of four hours per week over a seven week period. https://www.engineering.unsw.edu.au/all-events/free-online-course-through-engineers-eyes-engineering-mechanics-by-experiment-analysis

UMAT 2016

UMAT is a test that is used specifically to assist with the selection of students into the medicine, dentistry and health science degree programmes at undergraduate level at the universities listed on the website. Registrations for UMAT 2016 are now open and close 5:00pm (AEST) 3rd June 2016. The test takes place nationally on Wed 27th July 2016. https://umat.acer.edu.au/

GENERAL:

All About UAC for Student Advisers
This resource provides information on how to explain the ATAR, applying through UAC, HSC subject choice and Offers. http://www.uac.edu.au/documents/publications/All-about-UAC-advisers.pdf

National Institute of Education: Simulated UMAT Day Workshop
22nd May 2016, UNSW Kensington Campus
14th July 2016, UNSW Kensington Campus
5th March 2016, Canberra Grammar School
16th July 2016, Canberra Grammar School
The workshops cover every section of the UMAT test and also the styles of questions. Registrations are now open. http://nie.edu.au/simulated-umat-day-workshop

TSFX Free HSC Survival Guide
The School for Excellence (TSFX) have put together a 36 page guide to help Year 12 students achieve the best possible marks in end of school exams. The guide has advice about goal setting, managing stress and procrastination, time management skills, effective learning techniques, planning study timetables and more. Download it here: http://www.tsfx.com.au/hsc-survival-guide-edge-teachers

TSFX Mastering the Exams
June 2016, University of Sydney. The programme is for Year 11 and 12 students with information on skills and strategies that can be used during exam periods. http://www.tsfx.com.au/category-hsc-program/exam-strategy-lectures/

YEARS K TO 9 FOOTBALL CLINIC
APRIL SCHOOL HOLIDAYS
MONDAY 11TH APRIL TO THURSDAY 14TH APRIL

Boys from Kindergarten to Year 9 have a magnificent opportunity to attend the Trinity Grammar School Football Clinic in the September Holidays. **Benefits** of participating at this camp include:

- **24 hours of football tuition over four days.**
- Participants train as per the Football Federation Australia National Curriculum.
- **5-8 year old** participants focus on natural development (in Striking the Ball, Running with the Ball and 1v1) through fun football exercises and games.
- **9-13 year old** participants focus exclusively on improving their technical skills in the areas of first touch, striking the ball, running with the ball and 1v1.
- **14-15 year old** participants focus on improving the above technical skills and learning how to apply these core skills in a functional way.
- Middle School participants have opportunity to partake in video analysis using Game Breaker Software. The video analysis viewing facility includes the newly refurbished 110 seat Latham Theatre.
- Training facilities include a synthetic all weather football field and three indoor basketball courts.
- Participants play in mini tournaments that replicate the ‘A-League/Champions League/World Cup’.
- Participants are tiered according to their playing level.
- All participants receive BBQ on Monday and Thursday.
- Drinks and fruit provided each day.
- **Coaching Staff** are fully qualified coaches who were former distinguished Football players. Leading coaches will be **David Barrett** and **Luke Gray**, both current school teachers at Westfield's Sports High and Trinity Grammar School respectively. David played well over 300 National Soccer League games and Luke is MIC and Director of Football Coaching at Trinity and is the current 1st XI coach.
- See the following link for footage from the April Holiday Clinic [https://youtu.be/5Oj9_gbgiq4](https://youtu.be/5Oj9_gbgiq4)

**THE DETAILS**

**Where**  Trinity Grammar School, Summer Hill

**When**  Monday 11th April to Thursday 14th April

**Time**  9am to 3pm (check in at 8:45am Monday only)

**Bring**  Football boots, indoor shoes, sunscreen, hat, and water bottle. Bring your own Football.

**Cost**  $280. BOOKING and PAYMENT made by clicking on the following link at Trinity Online Community Website.

**IF BAD WEATHER**  No Cancellations

**CANCELLATION FEE**  20% cancellation fee occurs after Tuesday April 5th, 2016

Enquiries To:  **Mr Luke Gray** email lgray@trinity.nsw.edu.au or **mobile** 0406 236 768
