UNSW

Steps to find the right course at UNSW:

1. Find degrees that are linked to the **fields of interest** you are passionate about. A good place to start is the subjects or extra-curricular activities you enjoy most.
2. Consider how you like to learn and what your strengths are, as this will help you stay motivated at university.
3. Look at the career outcomes of each program on **Degree Finder** to see what inspires you.
4. Research **double degrees** to see what combinations are available. Is there a double degree that combines your interests or maximises the career goals you have identified?
5. Prioritise what's important to you by shortlisting the options that inspire you most. Learn about **UAC preferencing** to make sure you're on their way to your dream degree.
