Careers in the Australian Power Sector

Online information session – Monday 16 August 2021, 4:30 pm - 5:30 pm

Power is the pulse of the world. And there are lots of exciting jobs available in the Australian electricity sector that give you a chance to use your interest in STEM subjects and help our communities use more sustainable energy sources.

As part of National Science Week, the Australian Power Institute are hosting a discussion with three university students and the paths they are taking to an empowering career in the power industry.

These 3 inspiring students will share:

- Why they chose their field of engineering
- What sparked their interest in the energy sector
- The highlights of their studies so far (including work placements in industry)
- Where they see themselves going in the future
- Their advice for future power engineering students
